

Black Letter Law Publication

In October 2006, [Black Letter Law](#) was published as part of our fundamental aim of highlighting and promoting diversity in Law by showcasing the wealth of talent and the contributions made by ethnic minority lawyers.

In 2007, our plan is a comprehensive revision of the publication by changing the existing design, layout and content and include black minority ethnic (BME) judges, Queen's Counsels, partners in the top 100 UK law firms, partners in the top US and European law firms in the UK, Heads of Chambers, Professors of Law, Heads of Law/Directors of Law in local government and the public sector, general counsels in commerce and industry and more!
